Visit the following website to view 4 videos on Storyboarding:
http://bbt.nbed.nb.ca/grade_09/photo_story/getting_started.html

After the videos you can produce a storyboard like the example below to keep track of your research and ideas for the brochure

Sample Storyboard

Image Select an image you wish to use in the panel	Panel # (1-6) and panel title Enter the panel # and a title for the panel here Also use this space to type the text you will use for the panel # of your brochure. When researching, it is ok to change your mind when making your brochure, but when researching it is good to have a guide to help you sort through your thoughts.
Source (url where you found the information) Remember to record the Url correctly. Visit the site the picture is on, ensure that google or bing does not show up in your url address. (see the following video for more information: http://bbt.nbed.nb.ca/tutorials/internet_research/internet_research.html ||

Brochure Page 1

Panel 1

| Most important information (on back of cover and visible with panel 4) |

Panel 2

| 3rd most important information panel |

Panel 3

| 4th most important information panel |

Brochure Page 2

Panel 4

| 2nd Most important information (because this panel and the 1st is visible upon opening the brochure) |

Panel 5

| References List all sources Include some ads or pics. |

Panel 6

| (Cover) Title subtitle Image   By author (your name) |

Panel Formatting

Each panel should have a title that is centered on the column and be larger and bolder than the panel font.   The panel should be formatted for full justification (see the Paragraph group of the Home tab). Each panel should have enough text to nearly fill the column so choose broad topics that do not require too much text.   Each panel should also have a picture. (be sure to save the urls so you can list your sources on panel 5). Also – be sure that your brochure is on a word document formatted in landscape orientation and that you **do not use text boxes or a template.**
