

UNIT Five:

Using Proofing Tools

Topics:

- Using the Built-in Spelling Checker
- Using AutoCorrect
- Using Proofing Formulas

Do This:

I. Checking Your Spelling:

1. **Open** a new workbook.
2. In **Cell C2**, type *Cheeck my spelling errors*.
3. On the **Review Tab Ribbon** click the button:
4. **Select the correct word** from the list of corrections and hit the **Change** button.
5. Click **OK** when the window shows **spell checking is done**.
6. **Close** this workbook **without saving**.

Do This:

II. **Understanding Formula Error Values:** Note: Excel displays an error value, which always begins with the number sign (#), when you enter a formula incorrectly.

1. **Open** a new workbook.
2. Click **Cell A2** and type this formula: **=13/0**.
3. Hit **ENTER**. Notice the result in **Cell A2**. (You tried to divide by 0).
4. Click **Cell A4** and type, *School*.
5. Hit **ENTER**.
6. Click **Cell A4** again and type: **=sum**.
7. Hit **ENTER**. Notice the result in **Cell A4**. (You tried to get the sum of a word).
8. Click **Cell A5** and type, **=jk1*jm2**.
9. Hit **ENTER**. Notice the result in **Cell A5**. (You tried to use a cell outside the worksheet).
10. **Close** this workbook **without saving**.

Do This:

Unit 5 Exercise: **SAVE, do not print.**

Show the finished worksheet to your teacher

1. **Open** the worksheet called, *Errors*, located in the **Student Shared Folder on the server**, here: S:\+Shared Data Files\BBT 9\Excel Exercises
Or save from the Weebly site.

2. Click in **Cell A1**.
3. Perform a **Spell Check** on this worksheet and make the necessary corrections.
4. Click **Cell C12** and type **your name**.
5. **Save** the corrected worksheet in your server folder as: **Activity Five**.
