

PhotoStory Focus Questions:

- A. Why is Photostory the best technology to use for this presentation?
 - a. To answer this question ask yourself if you could use PowerPoint instead. If the answer is yes, how can you change the presentation so that PhotoStory is the best technology to use. (hint: ideally beyond titles and sources, no text should be used)
- B. How can PhotoStory best be used to convey the point of my presentation?

Your project must include all the following items and be saved to your Photostory folder:

A newly Created **Logo** for your title page

A completed **Storyboard** with at least 20 images (See rubric on reverse of Activity Sheet)

Images can be a mix of personal and internet found – but **all** must be referenced correctly

All images are saved in a “Pics” folder inside your Photostory folder

A completed PhotoStory project, **saved as a WMV file and converted to an MP4 file.**

Little or no text

Transitions and effects on /between pictures

Presentation has music and narration (music does not drown out narration)

Last slide(s) has **MLA** referencing for all content, and images (including your own work i.e. – (logo and images)
